Persona: Priya Nair

Operations Lead, 12-person marketing agency | ClickUp as-is

Goal: Get her 12-person agency running on ClickUp within a week, without becoming a full-time admin.

ACTION	1. Discover & Sign Up	2. Initial Setup	3. First Rollout	4. Rebuild & Adjust	5. Daily Use
TASK LIST	A. Searches for a spreadsheet replacement B. Signs up, confirms email with a code C. Starts the setup questions	A. Works through 8 setup screens with 65+ options B. Answers source and tools-used questions C. Invites teammates, picks features, names the Workspace	A. Lands on an empty Space while setup runs B. Finds a seeded Team Space with sample tasks C. Walks teammates through it; they can't find tasks	A. Rebuilds Spaces and Folders from team feedback B. Watches tutorial videos to speed things up C. Slowly gets team buy-in	A. Runs client work through task lists and due dates B. Still loses track of where things live C. Reviews team workload weekly
FEELING ADJECTIVE	**Hopeful** *Excited to get everyone off scattered spreadsheets*	**Overwhelmed** *Eight screens before she sees any work*	**Frustrated** *Sample content isn't organised around her clients*	**Cautious** *Progress, but far slower than planned*	**Relieved** *It finally works, even if setup took long*
IMPROVEMENT OPPORTUNITIES	Starter template for small agencies and a clearer first-run walkthrough	Keep only questions that shape the setup; preview the workspace they create	Client-based agency template, shown on the first screen	Undo-friendly restructuring and short in-context video tips	Search that shows where a task lives, plus a weekly digest of what moved

Stages 2–3 observed in ClickUp 4.0 sessions on 24 Sep 2026 (screenshots) and the ClickUp Help Center. Stages 1, 4–5: secondary research, to be validated.

Persona: Aditi Sharma

Final-year B.E. student | ClickUp as-is

Goal: Get an immediately usable, free task setup for coursework and a group project.

ACTION	1. Discover	2. First Open	3. Attempt Setup	4. Hit a Wall	5. Abandon
TASK LIST	A. Hears about ClickUp from a capstone teammate B. Opens it expecting a simple checklist C. Creates an account, confirms email with a code	A. Picks a use, then 14 options (Sales, PMO, IT…) B. Answers source and tools questions C. Chooses from 18 features and names a Workspace	A. Lands on an empty Space while setup runs B. Finds Personal List, collapsed under My Tasks C. Builds a shared List and invites teammates	A. Runs into free-plan view limits B. Gets upgrade prompts for features she doesn't understand C. Loses track of which settings she has tried	A. Asks her teammate for help, who is equally unsure B. Decides it isn't worth the time for one project C. Goes back to a shared Google Doc and WhatsApp
FEELING ADJECTIVE	**Curious** *Open to trying it, no strong expectations*	**Confused** *Questions are built for teams; she wanted a checklist*	**Determined** *Still willing to figure it out for the group*	**Overwhelmed** *The tool asks more of her than the assignment does*	**Defeated** *Ten minutes in, more effort than it's worth*
IMPROVEMENT OPPORTUNITIES	Set expectations upfront that ClickUp is more than a to-do app	Lightweight student path: fewer questions, then a ready template	Show a personal checklist and a ready student list up front	Clear free-vs-paid boundaries and fewer upgrade prompts during setup	Student group-project template that gives a working list in minutes

Stages 2–3 observed in ClickUp 4.0 sessions on 24 Sep 2026 (screenshots) and the ClickUp Help Center. Stages 1, 4–5: secondary research, to be validated.

Persona: Dev Kulkarni

Senior Project Manager, 200-person agency | Secondary persona | ClickUp as-is

Goal: Keep a complex, multi-client workflow fast and reliable as it scales.

ACTION	1. Build the System	2. Scale Up	3. Hit the Lag	4. Seek Support	5. Work Around It
TASK LIST	A. Sets up dedicated Spaces per client B. Builds custom statuses and dependencies C. Configures dashboards for weekly reviews	A. Adds more clients and recurring automations B. Connects dependencies across projects C. Workspace passes a few thousand tasks	A. Notices pages taking seconds to load B. Sees delayed status updates across views C. Whole team slows down	A. Opens a support ticket describing the lag B. Waits several days for a real reply C. Shares workarounds with his team meanwhile	A. Archives old projects and splits large views B. Trains the team to avoid heavy dashboards C. Weighs migration cost, decides to stay cautiously
FEELING ADJECTIVE	**Confident** *Finally a system that matches how the agency works*	**Productive** *The system pays off as it grows*	**Frustrated** *The tool works against him, not for him*	**Impatient** *Needs an answer faster than support gives one*	**Resigned** *Manages the limitation rather than solving it*
IMPROVEMENT OPPORTUNITIES	Workflow templates for agencies at scale	Usage insights before performance degrades	Better performance at high task volume and an in-app performance indicator	Faster response tiers for paid plans and a public status page	Auto-archive suggestions and lighter view options for large workspaces

Secondary research only (reviews; some predate ClickUp 4.0, launched Dec 2025). Not yet observed in a ClickUp 4.0 session.
